

Introducing the new RM One

The ONE for education

Developed from five years of use in education, and touching the lives of millions of learners. You told us what does and doesn't work, and we've responded, which makes the new RM One the perfect fit for the education environment...

Tough PC for education

Robust case design and a hardened acrylic screen for a long-lasting investment.

Carry handle

Integrated handle to help you move the new RM One easily from A to B!

Height-adjustable

Learners can easily adjust the height of their own screen, within a wide range, to suit all ages and sizes!

Secure height lock

Where height-adjust functionality is not needed, simply lock the height of your RM One screen to suit the learner's needs.

Spaced, front-facing USB ports

The RM One has easy to access front-facing USB ports, which are spaced to accommodate even the widest USB devices, from microphones to robots!

Base unit rotation rollers

The new RM One can be shared easily between a number of learners at the same time.

Control settings access

With easy access to control buttons you can quickly change screen settings or change the volume without moving the PC.

Integrated card reader option

So you can easily transfer media files from a wide variety of different sources.

Integrated Webcam and microphone

Supports video conferencing and learning platform functionality.

Security features

Desk bolt facility, cable clamp, secure cave and security screws all help to protect the peripherals and key components from theft.

Simple self maintenance

The inside components can be quickly maintained by removing the entire rear panel.

Space-saving design

Enabling you to maximise the desk space available in front of the RM One.

Proven green credentials

Reduce your carbon footprint with the new RM One featuring;

- Recycled plastic - c20% used in case design
- Available with ecoquiet technology to reduce your school's energy consumption
- Re-useable monitor at end of PC's life
- 'eco' mode settings to reduce the RM One's energy consumption
