

Digital workspace services

Expert design – Education focused - Reliable deployment

As more schools move fully into their digital workspace and away from onsite services, getting the platform setup and configured to get the most from it is vital. The more data and communication that happens in the cloud the more important it is to work with a partner with deep experience in configuring the platform securely.

Services overview

RM design, deploy, integrate and migrate both Google and Microsoft Digital Workspace environments.

Working in partnership with both Google and Microsoft we have been helping schools and trusts setup Microsoft 365 and Google Workspace for Education tenancies for nearly a decade, deploying and managing some of the largest educational deployments of digital workspaces in Europe.

Our services give you access to experts in the sector to create a platform that can grow as you expand usage and users without compromising security or functionality.

Business outcome	Benefit
Stay compliant and secure by design	Support collaboration and communication by building a consistent approach to design of digital workspaces without compromising security of data.
Minimise impact to teaching and learning in transition	Make the transition between platforms smooth so that there as little impact to teaching and learning as possible.
Ensure data integrity in migration	Choose from a selection of client deployment options, including pre-configured, to suit your needs.
Scalable and secure by design	Platforms are designed and built with scalability and security in mind, so as use grows your setup stays secure and easy to use.

“ The way that technology is used has changed massively over the last half-century and RM has been there every step of the way, providing trusted support and guidance to schools. ”

Leora Cruddas
Confederation of School Trusts

Key service features

Design services

- ✓ Designing security, folder structures, integration to other platforms, access control and collaboration our experts design a platform that is the right fit for your needs.

Deployment services

- ✓ Our experienced cloud teams deliver project managed setups to ensure smooth delivery of the new platform from working with the provider to platform configuration.

Migration services

- ✓ Our migration services take your data from another platform, whether cloud or onsite, and securely transfer that into your new platform.

Why RM?

Safe

The safety and safeguarding of our students is at the forefront of our minds and is the number one consideration when designing and delivering our IT services. We are setting the standard in the industry for safe use of technology in and out of the classroom.

Secure

Cyber threats are a major and growing concern for any trust or school. Our portfolio of IT security services mitigate the risk of a cyber-attack by highlighting vulnerabilities, implementing solutions & building resilience through training to improve your security posture.

Smart

Innovation is at the heart of our business, and we continue to explore advanced technologies, bringing to market pioneering ideas that respond to shifting educational tech needs in an unpredictable world.

Our certifications

Working with RM you can be assured that you will receive a high-quality service alongside our expertise and knowledge of supporting schools with their technology. Our school IT services are backed up by a range of educational and technology accreditations and partnerships.

If you are interested in hearing more about any of our services, please connect with your regular RM contact, or if you don't have one, send us an email at getintouch@rm.com
