

Technical Roadmapping Services

Building your technical roadmap to inform a 3-year plan.

Having clarity around what needs to be upgraded, replaced and decommissioned gives far better control over budgets and forms part of any strategic planning. We help build a detailed plan of risks and opportunities to inform your strategic direction and budget plans.

Service overview

RM Technical Roadmap services delivers an audit, report and roadmap for your school or trust to help inform projects for the next 3-years.

The service will review your technology and produce a RAG report, the RAG report is then used to produce a technical roadmap that you can work with your account management team on building a picture of potential spend and savings that can be made as well as informing strategic decisions on your IT.

Business outcome	Benefit
Plan budgets well in advance	By having a full picture of the current technology landscape and work that needs to be done you reduce the number of emergency funding requirements and take control of the required budget for the next 3 years.
Expert insight into technology	Our team will use our expertise across a wide range of technologies to inform strategic decisions.
Informed decision making	Reduce the reactive nature to procurement and start to plan around how you want technology to drive impact.

“The way that technology is used has changed massively over the last half-century and RM has been there every step of the way, providing trusted support and guidance to schools.”

Leora Cruddas, Confederation of School Trusts

Why RM?

Smart

Innovation is at the heart of our business, and we continue to explore advanced technologies, bringing to market pioneering ideas that respond to shifting educational tech needs in an unpredictable world.

Safe

The safety and safeguarding of our students is at the forefront of our minds and is the number one consideration when designing and delivering our IT services. We are setting the standard in the industry for safe use of technology in and out of the classroom.

Secure

Cyber threats are a major & growing concern for any trust or school. Our portfolio of IT security services mitigate the risk of a cyber-attack by highlighting vulnerabilities, implementing solutions & building resilience through training to improve your security posture.

Our certifications

Working with RM you can be assured that you will receive a high-quality service alongside our expertise and knowledge of supporting schools with their technology. Our school IT services are backed up by a range of educational and technology certifications and partnerships.
