

# SCHOOLBOARD

Present your Office 365 how your teachers want it.

Schoolboard provides a unique user interface within your existing Office 365 environment that displays classes and users how teachers would expect to see them.

- Create, share, submit and assess assignments online.
- Utilise the power of Office 365 and OneNote Class Notebooks functionality.
- Track student progress using Power BI visual dashboards.
- Synchronise your student data and automatically managing online classes.
- Reduce the need for servers, save on print costs and replace learning platforms.
- Reduce teacher administration.

### **Streamlined Digital Workflow**

Benefit from a pre-defined digital workflow solution which includes submission of assignments, feedback and grading.

### **Collaborate Across Any Device**

Access existing Office documents and collaborate using either Office Online or the full desktop versions of the Office suite.

### **Track Student Progress**

Use Power Bi to quickly analyse data collected from assignments and track progress of an individual, year group or the whole institution.

### **Synchronise Student Data With Your MIS.**

Automatically synchronise data with your Management Information System (MIS) including permissions and classes.

Schoolboard is charged at £1.50 per user.

Collegeboard is also available for Further Education Institutions.
