

## Agenda

09:30 – 10:00

Registration & Breakfast

10:00 – 10:45

Welcome and Keynote Session, James Browning

### Technical Stream 1

#### Using GAM to get more from G Suite

G Suite is often seen as simple and un-configurable with admins finding it difficult to make the configuration changes they're used to on a network. Utilising GAM will change that, in this session (written by Ben Marks, Network Manager at Ashlyns School) shows how you can use scripting tools to make the tenancy work for you.

10:45 – 11:45

### Technical Stream 2

#### Office 365 the Power Platform - from IT Pro to Cloud Pro

We will take a look at what Microsoft refer to as the "Power Platform" and how the IT role might be changing from fixer to a "no code" developer of platforms. A deep dive into Microsoft Flow, Power Apps, Bots and Azure cognitive services - demonstrating real examples of how they can be used in education.

11:45 – 12:15

Coffee Break

#### Change and the Individual

Making change in an organisation starts and ends with the individual. This session will look at methods you can employ to make change within your school.

12:15 – 13:15

#### Delivering Cloud-Ready Connectivity

With ever more services delivered from the cloud, your connection to it has become critical. How do you ensure your broadband delivers?

13:15 – 14:15

Lunch

#### Security in the Cloud

You have the potential to make your data and your users safer when using cloud technology but with so many options and licences it can all be a bit confusing. We will look at each of the options, evaluate their effectiveness in an education setting and separate the must haves from the nice to haves.

14:15 – 15:15

#### Navigating a Hybrid Environment

How to work in a hybrid environment well and RM Education's do's and don'ts, looking at tech that helps support this position while you move to the cloud.

15:15 – 15:30

Feedback, Prize Draws and Departure
